

Health and hope- Celebrating our health care partners

# 2021

## ANNUAL REPORT

16 years of service

# CORE VALUES

## Integrity | Compassion | Respect Empowerment | Service | Excellence

### MISSION

To increase access to health care for low income, uninsured individuals by coordinating a network of committed and compassionate volunteer providers.

### VISION

In partnership with the community, provide access to health care for those most in need

### GOALS

- Improve health equity and health outcomes for individuals with low income who are uninsured
- Increase the primary care treatment capacity in Anchorage
- Increase the ability of physicians and other community partners to volunteer their services effectively and efficiently
- Increase collaboration within the Anchorage healthcare community to meet the needs of low income, uninsured individuals

### SERVICES

- Coordinating donated specialty medical and dental health care services for people in need
- Assisting uninsured individuals to apply for Affordable Care Act (ACA), Medicaid or Medicare health insurance and helping individuals maximize their understanding and utilization of insurance coverage
- Ensuring all APA patients establish a primary care health home for ongoing preventive care

### IMPACT

- Strengthening the health care safety net with compassion and efficiency
- Improving health outcomes and health equity for low income, uninsured Alaskans through donated specialty care and enrolling individuals in health insurance plans
- Maximizing patient utilization of health insurance and health care systems through education and support
- Connecting donating physicians and dentists to those most in need
- Expanding the primary care treatment capacity in Anchorage with extensive health care partnerships
- Increasing collaboration within the Southcentral health care community to meet the needs of low income, uninsured individuals
- Developing health care partnerships to address health inequities and socioeconomic aspects of poverty to improve the health of all Alaskans

### ELIGIBILITY REQUIREMENTS

- Municipality of Anchorage resident; people living outside of the Anchorage bowl are also eligible for services through Anchorage Project Access
- Gross household income of 300% or less of the Alaska Federal Poverty Level Guidelines
- No other form of health or dental insurance
- Must have a medical or dental need

## The 2021 Annual Report Is Dedicated To Two Beloved Project Access Health Care Champions Who Passed Away This Past Year.

### Ms. Charlene Spadafore Vassar

---

Ms. Charlene Spadafore Vassar served as APA's Executive Director for 12 pivotal years from 2006 to 2018. Char was a passionate and tireless advocate for APA patients and for the services we provided to underserved individuals and families in our community. Her legacy of love and compassion continues as we acknowledge her impact during her tenure at APA such as the implementation of APA's donated dental program, ensuring APA staff became certified application counselors to assist patients to enroll in health insurance, and helping to create and enhance APA's annual fundraiser- Revolutions-Spinning for Health Care. Char's enthusiasm, talents, and dedication helped hundreds of Alaskans in need receive life-changing donated care. Char passed away on August 8, 2021, but her legacy of innovative leadership continues to inspire us at APA.

### Dr. Tom Wood

---

Dr. Tom Wood, renowned nephrologist and humanitarian, passed away on September 25, 2021. Dr. Wood was a devoted physician, husband, and grandfather who dedicated his life to serving patients in Alaska through establishing EMT services in Alaska, through his clinical practice, and in his consulting work with Anchorage Neighborhood Health Center and Anchorage Project Access.

Dr. Wood served as APA's Director Emeritus. In 2020, he received APA's distinguished Mt. Huntington award for his extraordinary volunteer service supporting APA's donated specialty medical and dental programs. Through his thoughtful guidance, exemplary clinical skills, and a heart for patients, Dr. Wood's leadership strengthened and enhanced APA's services. We are grateful to Dr. Wood for his many years of selfless contributions in service to humanity.

# A Message from the Executive Director

*"A hero is someone who has given his or her life to something bigger than oneself."*

**– Joseph Campbell**

In our 16th year of service, throughout year two of the COVID-19 pandemic, rarely was this quote more applicable than in 2021. Collectively we navigated rapid changes in health care delivery, hospitals at full capacity, evolving COVID mitigation strategies, and Alaskans' lives being turned upside down due to COVID-19. The steadfast commitment of Anchorage Project Access' volunteer providers, continuing to donate life-saving health care throughout the pandemic, inspired us, and gave us hope for brighter times ahead.

Our 2021 annual report is dedicated to the selfless and compassionate health care providers who demonstrated extraordinary commitment during this past year, never wavering in their support of people in need of donated care. Over 680 health care partners strong, APA adapted our operations to ensure our patients, and the generous physicians providing donated services, were protected by APA's rigorous COVID mitigation practices, to maintain the safety of patients and donating providers.

Everywhere we looked, there were heroes doing great work. They were staffing outdoor COVID testing sites near our office in subzero degree weather. They were working double shifts at the hospitals to ensure patients received essential care. They were scheduling our patients' donated surgeries, cancer care, physical therapy, imaging, dental treatments, etc., and doing so with patience and grace. Our heroes were serving on our Board of Directors- providing thoughtful guidance to APA, while operating their own clinical practices, working in emergency departments, overseeing hospital operations, teaching kids at home, helping elderly relatives, and consistently offering to do more.

Our heroes were present every day in the APA office. The APA staff worked on-site throughout the pandemic, adapting and innovating to ensure patients and their families received accurate information about COVID-19 and to allay any concerns regarding their pro bono health care treatments.

We are Alaskans. We are resilient, solution focused, and compassionate. On behalf of our patients, we thank you for everything you are doing to restore health and hope to Alaskans in need.

In your service,

A handwritten signature in blue ink that reads "Melinda Freemon".

Melinda Freemon  
Executive Director, APA

# A Message from APA Board President

I am pleased to be entering my 4th year working with APA and have enjoyed the privilege and honor to serve this year as Board of Directors' President and APA Medical Director. The last 2+ years have been a blur due to the unanticipated Covid-19 pandemic. The pandemic has changed how we function in community, engage with family, engage with co-workers, and most importantly, it has drastically changed how we deliver healthcare and communicate in healthcare. Now, more than ever, we see the importance of flexible thinking and dynamic system structures that allow us to care for our community with the same diligence and dedication to excellent care for all of our community members as we might have pre-pandemic.

Our director and staff have seamlessly transitioned how we coordinate care between patients and donating physicians with grace since the very start of Covid-19 and have continued to think creatively as we are entering our third year of the pandemic. They've implemented strategies that have allowed APA to be a true solution finder for community members needing additional education, safety, testing, and care. The roles of APA have always been equity and resource driven and we've seen APA strengthen community partnerships to continue those important roles as healthcare delivery and patient connectivity have seen bigger challenges this year.

We've been truly honored to see the continued support of our donating community physicians and staff. I am proud to be a member of our medical community here in Anchorage and APA during this time and thank everyone for their dedication to maintain hope, health, and safety in our community and beyond. Our healthcare future in Alaska is bright and APA is looking forward to a challenging, safe, and healthy year ahead!

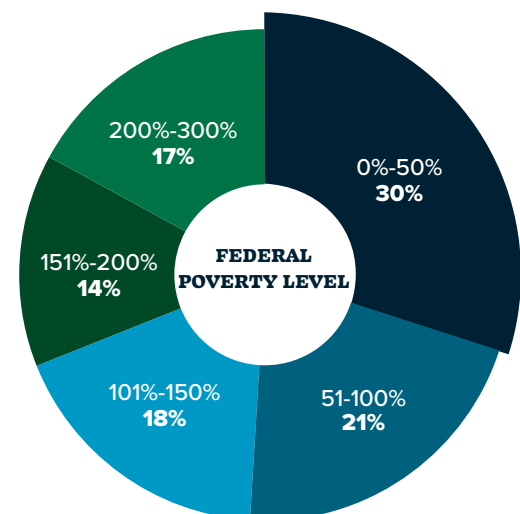

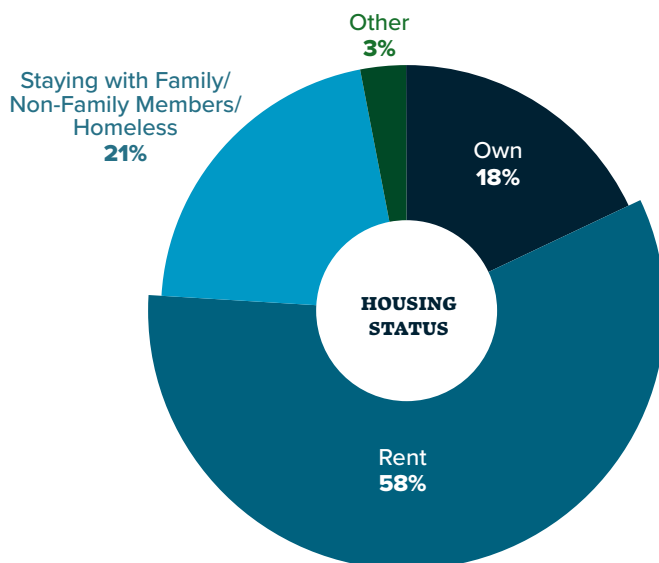

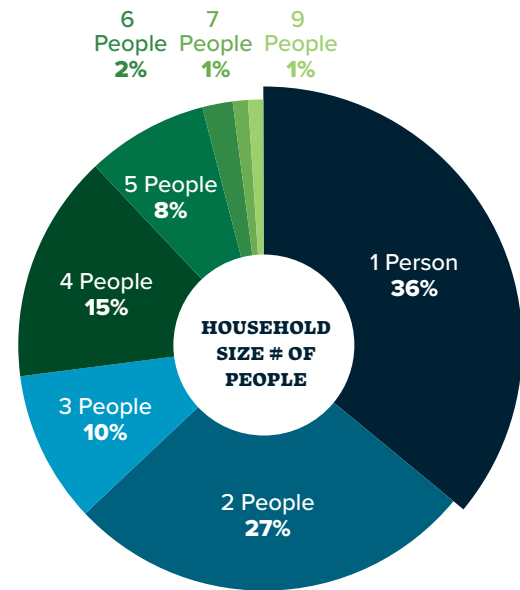

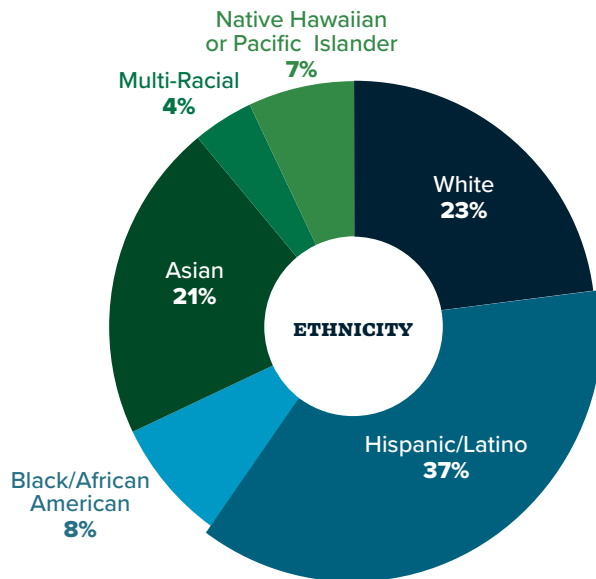

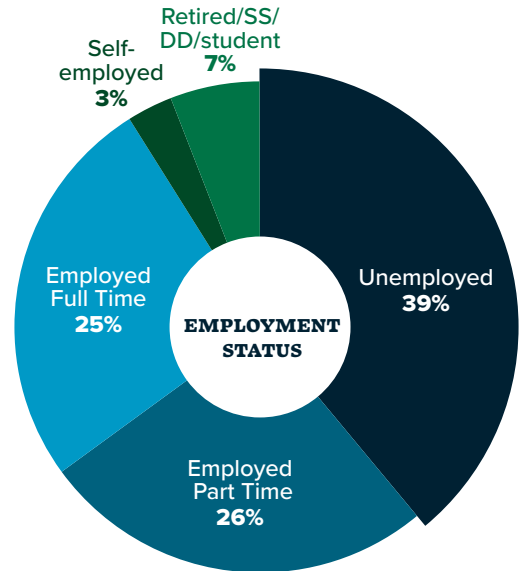

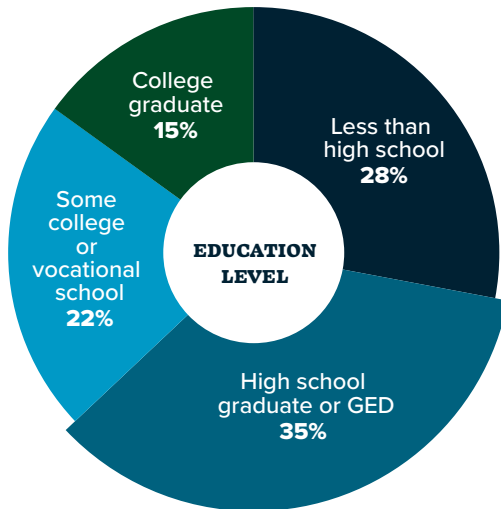

I am honored to be a part of APA. Please know that we are truly engaged in the work to shape a healthy Alaska.

In your service,

*Jaime Butler*

Jaime Butler, MD  
APA Board of Directors President/APA Medical Director

## Our Patients - Demographics

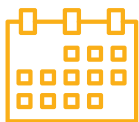

APA Highlights 2005 – 2021

Over  
**8,794**  
enrolled and re-enrolled  
patients received donated  
specialty health care  
through APA

scheduled for dental treatment

**129** Patients have received donated  
dental treatment through APA

**3,360**

Patient volunteer hours to “pay  
it forward” in our community

**\$432,414**

Worth of dental care donated  
through APA’s dental program

# Achieving Health Equity in Alaska-

*Anchorage Project Access moves the needle forward*

Anchorage Project Access is a key partner in Alaska's effort to improve access to health care by participating in the following health equity workgroups:

Healthy Alaskans  
2030 Advisory Team

Medicaid Uninsured  
Rate Workgroup

Alaska Healthy  
and Equitable  
Communities  
planning group

Healthcare and  
Homelessness  
Committee

Medicaid Uninsured  
Rate Workgroup

The Anchorage  
Health Literacy  
Collaborative

The Donated Care  
Network Learning  
Collaborative

Community Health  
Workers Workgroup

APA Highlights 2005 – 2021

Over  
**9,450**

Resource and referral  
contacts provided (since  
2018 when outreach data  
was tracked)

*Restoring health & hope to Alaskans in need*

APA Highlights 2005 – 2021

Over  
**\$52.3**  
**million**

worth of donated care  
provided by APA's  
healthcare partners

## David J. – Heart surgery

Prior to contacting APA, David was unemployed, homeless, and living in his truck in the parking lot of a local health care facility. The security guards allowed him to take respite inside the facility during the day as his heart condition was quite debilitating. David was very discouraged about his health, his life, and his economic circumstances. After spending time with the APA staff, David felt more positive about his health situation. APA staff enrolled David into the program. While awaiting his donated heart surgery, APA's Eligibility Specialist assisted David to apply for Medicaid and Medicare. His applications were approved, and the cardiac surgery and follow-up treatments, were covered by his health insurance.

David's health improved and he was able to find employment as an apartment manager. He then purchased a mobile home. David continues to stop by APA to inform the staff that he is happy, healthy, and living his life paying it forward. He helps neighbors and anyone else in need as he states that he knows firsthand the kindness of strangers and how it has impacted his life. He feels a huge sense of gratitude to the staff at APA and to the doctors as we "saved his life."

### PATIENT TESTIMONIALS

## Rich H.- A smile transformed

Rich H. contacted APA to inquire about the dental program he had heard about on television. Disabled since 2016, Rich was unable to work. He was receiving Social Security and Medicare but did not have any form of dental insurance. He had a dental problem that was very painful. Rich was enrolled in APA's dental program and he received his initial exam and treatment plan from APA's health care partner, Anchorage Neighborhood Health Center (ANHC). Rich's treatment plan included receiving a full set of dentures. APA covered the cost of the dentures as part of the dental services. Rich stated that APA was "really interesting with help above and beyond!" He was also fond of saying that APA was "too cool for school and that APA is so fantastic!"

Rich took selfies on his phone before and after his new dentures which he said was his Christmas and birthday present all wrapped up in one. He said not only did his physical and mental health improve, but his friends said, "you look really good and you look handsome!" Rich stated he is eternally grateful for the gift of a beautiful smile!

### PATIENT TESTIMONIALS

# Cinderella Tollefsen

APA Highlights 2005 – 2021  
Over  
**2,037**  
health insurance  
applications submitted  
(since Alaska's Medicaid  
expansion in 2015)

The Anchorage Project Access (APA) mission of serving patients that lack access to traditional resources of care integrates seamlessly with the Alaska Trauma & Acute Care Surgery (ATACS) mission to provide outstanding surgical and acute care services to Alaskans. Our experience working with APA has been remarkable and leaves myself, my staff, and my providers with a sense of having truly helped a person in need.

As we all can appreciate, access to care remains a significant barrier in our community. Specifically, to those that are perhaps most vulnerable, the part of our community working hard day to day but lacking the ability to be medically insured. Finding appropriate medical care can be a struggle when you don't qualify for state assistance but can't afford health coverage. APA provides the link for such situations.

When APA approached ATACS and asked us to help with patients that lacked this safety net when it came to general surgical services it was clearly a perfect fit. The first APA patient we treated was an individual in our community whose medical issue correction was considered 'elective' but was making life and the ability to work difficult. We were happy to be able to jump in and help this patient and continue to enjoy the cases that are referred to us, each need is genuine and necessary. ATACS believes in community, and this is one way to be part of that community.

Thanks,

*Cinderella Tollefsen*

Cinderella Tollefsen, MBA, FACMPE  
CEO  
Alaska Health Services, LLC  
Alaska Trauma & Acute Care Surgery, LLC

As the CEO of Imaging Associates and Alaska Radiology Associates, I am very proud to be a donating provider for Anchorage Project Access (APA) and to serve on the Board of Directors. I have been involved with APA since 2005 when they opened their doors to patients without financial resources and without health insurance. APA's services save lives. It is an honor to be an imaging provider of best in class diagnostic and interventional services for APA patients and to work with the dedicated Board and staff who express their compassion by serving individuals and families most in need.

Overseeing the largest radiology group in the State of Alaska and outpatient imaging centers that carry a brand preference status, allows me to stay in touch with the medical needs of Alaskan residents and to meet those needs when I'm called to help. Along with the hundreds of other donating medical and dental providers, I believe in helping people without access to health care to achieve improved health. APA makes it seamless. They make it easy to give as they do the financial eligibility screening, review the medical referrals, ensure that all patients establish a primary care health home, and coordinate all of the donated specialty medical and dental appointments. In partnership with our health care providers, APA reduces the use of the emergency departments by facilitating donated care. I want to thank our community of providers for your commitment to the health and vitality of all Alaskans.

## PATIENT TESTIMONIALS

### Byron E. assisted with urology and dental needs

Byron E describes his first referral to APA as a life and death situation. He needed surgery and he was very appreciative of the surgery he received through one of APA's donating urologists. Several years later, Byron had extensive dental problems, and, like many individuals who are on a fixed income, he did not have dental insurance. APA worked with dental partner, Anchorage Neighborhood Health Center, to provide Byron with x-rays and a treatment plan. APA covered the cost of the treatment which was outside the scope of APA's donated care. When asked about his experience working with the APA program and staff, Byron stated, "Great! How could anyone ever complain when someone gives you something?"
